HEADLINES

Teachers' Pensions Action Forum (TPAF)

We held the second of our virtual TPAF events of the year this month, which received an overwhelming amount of positive feedback from those involved.

Due to this, we've decided to hold these events more frequently, to give even more employers the chance to join us.

Possible missing service for retirees

We're expecting a high number of retirement applications at the end of the 2021 academic year, therefore we'll need your assistance to ensure that:

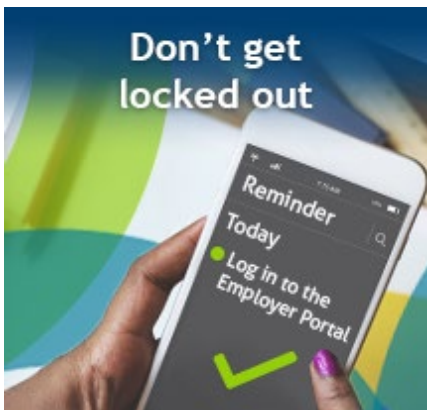

- members' service and salary is up to date

- members submit their applications as soon as possible, and that you've reviewed their information prior to the application being submitted to us.

To help you, we'd like to remind you of the processes involved so that you know what to expect.

Employer Portal log in

For security reasons, if an Employer Portal account isn't logged into at least every 90 days, the account will be locked and will need to be manually unlocked by us. This can then lead to the account being disabled entirely if it's not unlocked after 104 days.

Help us understand your summer retirement needs

At this time of year, we know that a lot of eligible members start looking into and applying to take their pension at the end of the academic year. To help us understand how many members will need support, we're asking for your assistance by providing us with the number of employees you know are considering retiring this

summer, via a short survey.
