How to Complete the Application Form.

Notes: You must ensure that each section is fully completed by the appropriate party and only then should you submit the full set to Teachers' Pensions.

Notes for the applicant

General: How to apply for a Transfer-In Estimate

A Transfer In Estimate form must be completed if you are considering or want to transfer in benefits from your previous pension. It's designed to collect information from you, your employer and your previous scheme. It's your responsibility to organise the collection of all of the information required.

So once you've completed Part A, which is information about yourself, you should then ask your previous scheme administrators to complete the information required in Part C. We advise you to send a copy of these notes to each party.

You should ensure that Part C is returned to you and is complete before sending all parts to us for processing. Once received by TP, you can monitor progress by going to 'Track My Case' in the secure area of our website www.teacherspensions.co.uk.

Eligibility

If you want to transfer benefits from a previous pension scheme into the Teachers' Pension Scheme you must submit an application to proceed within 12 months of entering pensionable teaching service.

Completing this form does not constitute an application to proceed with a transfer into the Teachers' Pension Scheme (TPS), it only provides the information to allow Teachers' Pensions to estimate the potential value of pension benefits transferred into the TPS.

If, after being provided with the estimate, you wish to transfer pension benefits into the TPS you must **contact your previous scheme, within 12 months after entering pensionable service in your current TPS scheme arrangement, and advise them to proceed with the transfer.** Your previous scheme will likely provide a form for this purpose, usually when they provide you with details of your guaranteed transfer value. Applications to proceed that are not made within 12 months of entering pensionable service in your current TPS scheme arrangement will result in the transfer-in being rejected.

We work hard to deal with all transfer requests but it may take time as it can be necessary to contact third parties as part of the process. It's important we receive your request to transfer well within the timescale of 12 months to ensure we're able to deal with it accordingly.

The transfer process

There are three types of scheme categories:

- Club (broadly public sector)
- Non-club other occupational schemes
- Individual pension policies

It's important to remember that submitting an application doesn't commit you to transferring your previous pension credit into the TPS. Instead, we'll use the information supplied by your employer and previous pension scheme to produce a quotation that'll be sent to you to consider. This is called an offer of service. It expresses what the transfer value from your previous scheme will purchase in the TPS. You then decide whether to accept the offer. If you want to go ahead, the transferred-in service will be added to the pensionable service you accrue in the TPS. The aggregated total will be used in the calculation of your pension benefits.

Please be aware that you can't transfer Additional Voluntary Contributions (AVCs), or Free Standing AVCs associated with your previous scheme, into the TPS. However, it may be possible for these to be transferred to Prudential, the AVC provider for the TPS.
