## Child Pension Renewal Changes

We no longer require the declaration form to be signed by an establishment when a child applies for or is renewing a Teachers' Pensions pension and is over the age of 17 or in full-time education.

The declaration form has to be signed by the child, parent or guardian only.

## Training opportunities

We're running a programme of webinars and seminars between September and December adding to our online learning resources.

**Seminars** - We'll be offering 4 seminars a month, comprising of a morning and an afternoon session. The morning will cover employer led activities such as Contributions, Audit and End of Year Certificate, Employer Portal, our website and Service Submissions. The afternoon session will focus on your obligations to members.

**Webinars** - As well as the 'Introduction to Monthly Data Collection', we'll be introducing a further webinar for those employers who have started the on-boarding process. We're also looking into creating a webinar for 'new employers' and re-introducing an updated Auto Enrolment webinar.

Keep up to date with our training programme [here](#). If there's additional training you would like to see us deliver, please share your ideas by emailing: [training@teacherspensions.co.uk](mailto:training@teacherspensions.co.uk)

Online learning resource Following the introduction of the

‘starters and leavers’ and ‘retirement options’ online learning resources we mentioned in our recent bulletins, we’ve also now created bite size videos on ‘understanding contributions’. There’s an overview video along with three follow on videos guiding employers through the process.

Take a look at our online resources [here](#).

## Look sharp and be aware!

We now have employers who are providing service submissions in two different ways, the traditional Annual Service Return and the new Monthly Data Collection (MDC). As we move through this transition stage until all employers are only using MDC (from April 2018), we'll be communicating news stories to raise the awareness of these changes.

This has become more important as some processes now mean that it's dependent on what system the employer is following as to what the member has to do. An example of this is the Certificate of Re-employment, which we reported last month would in most cases not be required if an employer is using MDC.

## Certificate of Re-employment Reminder

For employers not using MDC, it's important that we receive a completed Certificate of Re-employment for those employees who have remained in or returned to pensionable employment after taking Age or Premature retirement. This is a separate exercise which is required in addition to service and salary information for the Annual Service Return.

If we've not received a Certificate for 2015/16 please can you complete one and return this straight away as it impacts on the member and their pension may be suspended as we're not able to determine if they've exceeded their earnings limit.
