Annual Service Return

The Annual Service Return template is now available to download from the Employer Portal for completion. If you're an employer who has not yet on-boarded to Monthly Data Collection, you'll have been notified of the template being available.

HM Revenue & Customs require all employers to provide the data required in the template to Teachers' Pensions by the deadline date of 6 July.

For information about the Annual Return process please visit our dedicated area <u>online</u>. We've also updated our Annual Return <u>Guidelines</u> to support you when compiling your Return.

Monthly Data Collection (MDC)

We've still not received all files from employers who stated they would like to join MDC during April. The deadline date for file submission was 7 May.

If you have notified us that you would like to join MDC in April and confirmed that you would make your first submission by 7 May but have missed this deadline, please make sure that you submit your return as soon as possible or re-arrange your on-boarding date by completing an Activation Form.

Joining Monthly Data Collection (MDC) part way through a financial year

Have you joined MDC part way through the financial year? If the answer is yes you'll need to advise us of any periods of service not covered via MDC.

You can complete this backdating process in one of two ways, by providing either a backdated MDC file or a part Annual Service Return. The deadline submission date for backdated information is 6 July 2017. Should you require any support with this process you can find help in the MDC FAQ section.

Monthly Contributions Breakdown Form - Date due field

A new monthly contributions breakdown form was made available prior to the start date of the 16/17 financial year.

Please ensure that the 'Date Due' field on the form specifies the deadline date of those contributions that are due, and not the date which contributions have been issued to us.

We've noticed a number of errors as a result of employers providing the date of issue, so please help us to reduce the number of errors and ensure your return is allocated appropriately.

Issues with Certificate of Re-employment

If you've provided incorrect salary details on a Certificate of Re-employment form, which has resulted in an overpayment, you should not amend the service through the Employer Portal. An amended Certificate is required.

If you're now providing service information via Monthly Data Collection, whilst you're no longer required to complete a Certificate you must ensure that you complete both outstanding certificates and any which we may contact you directly about.
