Please return this form together with a copy of Education 1 and Form 1 to: Capita Business Services Ltd, Teachers' Pensions, Mowden Hall, Staindrop Road, Darlington, DL3 9EE

Guidance for Completion of Education Form 3

1. Teachers' Pensions (TP) will make arrangements for setting up an instalment plan for payment of the required contributions. You will need to provide TP with details of the full cost of the service to be restored and the applicants preferred method of payment. TP will write to the applicant giving details of the monthly deduction to be made from their salary as well as the payment period. You will be notified at the same time and given at least one calendar month notice to amend your payroll system. You will be responsible for the collection of active and deferred applicant's contributions. TP will take responsibility for the collection of retired applicant's contributions.
2. Complete identification details in sections 1-8. If the applicant is not currently paying contributions and / or has never been a member of the scheme a teacher's reference number will be allocated by Teacher's Pensions on receipt of this form. You will be notified of the reference number at the same time as you receive details of the payment plan.
3. Indicate the current employment status of the applicant by ticking the relevant box at item 9.
4. Complete details of the service claimed. This must be shown on a financial year-by-year basis and in the same format that information is currently provided via the annual return exercise. You will need to show the full time equivalent salary rate for each year; this will either be an actual salary paid or, the relevant notional salary rate. This will be the notional rate used to calculate the backdated employee contributions. The actual part-time salary paid will be the monetary value derived from the percentage of the service being claimed. The service and salary details may be the same for each financial year. If you have calculated the days excluded as part of the service credit calculation then these should be entered on the form rather than the actual salary paid.
5. Complete the 'total cost to the employee' box, the amount quoted should be the full cost of the period of service being purchased. If a part period is being paid for the amount should be the cost for the part period, only.
6. Tick the relevant box to indicate whether the calculation was based on actual or, notional salary rates.
7. Please enclose copies of the documents relevant to the claim i.e. Education form 1 (Questionnaire) and Form 1. There will be no requirement for you to supply copies of all the supporting evidence used to validate the claim.
8. Complete the certification. If the applicant has agreed to have their service since 1 May 1995 treated as pensionable employment and they had not previously made a part-time election you will need to begin collecting contributions at 6% of salary

and submit the employers share. You will be contacted by TP in due course about the payment of any arrears of contributions due.

IMPORTANT NOTE

It is important that you provide accurate and detailed information showing the full period of the service to be credited. This information will be used to calculate retirement benefits on final retirement and in some cases the salary details may be used in the average salary calculation.

Any queries relating to this guidance or Education Form 3 should in the first instance be directed to Teachers' Pensions.
